

1931 SPORTS NIGHT CANCELLED; ALUMNI SHOW NO INTEREST

M.I.T. A.A. Reports That Lack
Of Response Is Not Due
To Management

NO NEW SQUASH COURTS

Because the alumni have shown very little interest in All-Sports Night, which was designed primarily to acquaint them with athletics at Technology, the Institute Committee last evening voted to cancel the event from this year's calendar, after the M.I.T. A.A. had stated that the lack of interest was not due to faulty organization or planning. It was pointed out, however, that activities might still give individual exhibitions for the benefit of the student body and Alumni.

At the same meeting, which was held at 5 o'clock in the West Lounge of Walker, a letter from President Karl T. Compton was read in which he advised the Committee that although he was in full sympathy with their petition that the Institute build additional squash facilities, he could not recommend the action under the present financial status of the Institute, and that additions to the courts would have to await more prosperous times.

Library, Gyms Open Sunday

A letter from Dean Harold E. Lobdell '17 stated that in compliance with the Committee's petition the Walker Gym, Library, and Hangar Gym would be open for the recreation of students on Sundays and holidays after 12 o'clock. He pointed out, however, that since no request had been made for the facilities of the Tech Field, this would not be available on Sundays.

Carroll L. Wilson '32, chairman of the Budget Committee, announced that the total of this year's activity budgets amounted to \$18,400 and that this estimate left approximately \$2000 for changes and reserve.

Financial Statement

The Institute Committee passed a motion authorizing the chairman of the budget committee to draw up a uniform financial statement to be used by all Class A activities. This was done primarily to free the activities from the "unwieldy and complicated systems" now in use.

A motion requiring all bills incurred by committees to be authorized and signed
(Continued on Page Four)

PROFESSOR PRESCOTT SPEAKS TO DORM MEN

Professor Samuel C. Prescott '94, head of the Biology Department, was the featured speaker at the "Acquaintance Dinner" held by the dormitories in the Main Hall of Walker Memorial last Monday night at 6 o'clock. A large delegation of dorm residents was on hand for the affair.

"Men the Dormitories Were Named For," was the subject of Professor Prescott's speech. The talk was preceded by a dinner, for which the participants paid 65 cents each.

Phos Publicly Dares T.E.N. To Come Out

Phosphorous, the Voo Doo guardian angel, has stepped forward again, this time to challenge T.E.N. to a football match. No words could better convey the kernel of Phos' dare than his own, which we give in full to our readers:

"Phosphorous hereby challenges the T.E.N. to mortal combat in football on Saturday, November 14, at the hour of 1:30 p.m. No post mortems!"

This game, if, as, and when played, will be the first of a double-header bill on Tech Field. The second game is to be between THE TECH, which is entirely confident of repeating last year's whitewashing performance, and Technique, variously called "The Snukes" and the "noble warriors," depending on who does the calling.

President Compton Addresses Meeting of Research Council

Members of Institute Faculty
to Present Papers at
Harvard Today

President Karl T. Compton will speak and several members of the Institute Faculty will present papers at the fourth annual meeting and conference of the National Research Council's Committee on Electrical Insulation, Division of Engineering and Industrial Research, to be held at Harvard University today and tomorrow. Dr. Compton will address the conference dinner at the Faculty Club this evening on the subject, "The Distribution of Electricity in Molecules."

Professor F. G. Keyes of the Department of Chemistry will speak this morning on "Dielectric Constant and Molecular Interaction," and Professor John C. Slater of the Department of Physics will discuss "Molecular Structure and Valence." Professors J. C. Balsbaugh '24 and P. H. Moon of the Department of Electrical Engineering will present a paper on "A Precision Bridge for the Measurement of the Power Factor of Small Oil Samples."

"The Dielectric Analogies of Ferromagnetism" will be discussed by Professor Hans Muller of the Department of Physics this afternoon. On Saturday morning, Professors Balsbaugh and Moon will present a paper entitled "The Power Factor of Air Condensers."

A. S. M. E. ANNOUNCES CHANGE IN TOUR PLAN

Warren Brothers Pipe Foundry
Object of Saturday Trip

Warren Brothers Pipe Foundry Company will be the object of an inspection tour by members and guests of the Student Branch of the A.S.M.E. tomorrow morning, instead of the Mystic Iron Works, as shown on the posters. The inspection will consist of a tour of the plant under the direction of the superintendent, Mr. C. O. Butler, and Mr. H. L. Reagle. Professor Fuller will also attend.

All students interested should be at the plant by 10 o'clock in order to be properly accommodated. The foundry can be reached very conveniently by street car to Sullivan Square. It is located beside the Mystic Iron Works.

The trip will be especially interesting because of recent developments in the centrifugal pipe casting methods, and because, unlike many of its neighbors, this plant is producing to the full extent of its capacity. Pipe is being cast centrifugally in a large variety of sizes and shapes.

PROMINENT ENGINEER WILL ADDRESS C.E.S.

Mr. E. H. Rogers, Chief Engineer of the Metropolitan Park Division, will be the speaker at the next dinner meeting of the Student Branch of the American Society of Civil Engineers on Tuesday, November 17, at North Hall, Walker. The subject of his talk will be "Improvements in the Charles River Basin and Metropolitan District," and it will be illustrated by motion pictures and lantern slides. Dinner will be fifty cents at the usual cafeteria service and all planning to attend should sign up immediately at the Civil Engineering bulletin board, first floor, Building 1.

PRIZE FOR STUDENT PAPER IS OFFERED

In an effort to stimulate the writing of student papers on technical subjects, the Executive Committee of the Technology Branch, A.S.M.E., at a meeting held last Tuesday, voted to award three prizes for the best papers written by members of the Society during the coming year. There will be one prize each of \$15, \$10, and \$5. Papers may be written on any subject.

At the same meeting the committee appointed Arthur G. Russell '32, as chairman of the Membership Committee. Russell will start a drive soon to increase the membership of the Society.

VARSITY HARRIERS GET SECOND PLACE AT NEW ENGLANDS

Gilman Leads Team In Seventh
Place, Kearns Tenth, Two
Sophs Trailing

INTER-CLASS ON SATURDAY

Running against the stiffest competition in New England, the Institute cross-country team brought home second place after showing rather mediocre form all season. Individual honors for the team go to Capt. Don Gilman, who finished seventh. His running this year has not been as good as it had promised to be, apparently on account of poor conditioning, but he broke loose in this race, and seemed to get back all of the old form.

Jack Kearns, another Senior, who has been leading Gilman all season long, resumed second place to the captain, the position he held most often in previous competitions. He placed tenth in the final count-up, being separated from Gilman by only two men.

Technology was not rated to take such a high place in the stiff running which was a sure thing, and it was only by dint of its well-balanced team, that it did place so well. Bates, placing men both in first and second, was not able to finish further up than fifth, in the total point tally.

(Continued on Page Three)

FIRST DORM FORMAL TO BE HELD TONIGHT

Techtonians Will Play For
More Than 200

Arrangements are complete for the first formal dance of the dormitory social season, to be held tonight in the Main Hall of Walker Memorial. Beginning at 9 o'clock, the Dorm men will dance to music by the Techtonians until 2 a.m. More than two hundred couples are expected to attend.

Mrs. Karl T. Compton, wife of President Compton, will head the list of chaperones. Assisting her will be Mrs. James R. Jack, wife of Professor Jack, head of the department of Naval Architecture and Marine Engineering, and Mrs. Samuel C. Prescott, wife of Professor Prescott, head of the department of Biology and Public Health.

Tickets Easy on Pocketbooks

Through careful management and wise economy, the dance committee, headed by Bruno Werra '32, has found it possible to sell tickets to this dance for the low figure of one dollar and a half. This charge includes refreshments, to be served to the dancers at 12 o'clock.

PRESIDENT COMPTON TO VISIT TECH CABIN

T. C. A. Officers and Wives Will
Spend Weekend at Lake

Tech Cabin at Lake Massapoag will be the scene of an outing at which President and Mrs. Karl T. Compton and a group of T.C.A. workers will be present this week-end. The group, which will include members of the T.C.A. Advisory Board and the two T.C.A. secretaries, Wallace M. Ross and Penne N. Aborn, and their wives, will leave for the camp tomorrow after lunch and will return next Sunday afternoon.

Saturday evening will be spent playing bridge and during the daylight hours the men will engage in athletic competition. The T.C.A. members have been advised to get some practice to avoid the defeat which they suffered a year ago at the hands of President Compton when he won every event.

The Tech Cabin has become very popular among the students at Technology. It has been in use every week-end since September 12, and is now engaged up to Christmas, except for December 5 and December 6. It was occupied over Armistice Day by ten girls from the Registrar's office. This is the first time in the history of the Camp that it has been occupied by a group of girls only.

1935 ELECTS COLLINS, ZICH, GRANT, AS PRESIDENT, VICE- PRESIDENT AND SECRETARY

Glee Club Makes
Local Broadcast on
WEEI Saturday Night

Program Will Be Sponsored By
The American Liberal
Arts Colleges

Technology will be represented in the radio broadcast of The American Liberal Arts Colleges tomorrow night. This program will begin at 6:45 o'clock and will be heard locally from WEEI.

Songs by the Glee Club will open the broadcast. Its number will be "On Wings of Song," by Mendelssohn. Following this selection, Dean Knapp of Wellesley will talk on "The College and the Liberal Art Student." President Marsh of Boston University will then speak on "Preparing the Liberal Art Graduate for Contemporary Life."

Closing the program, the Glee Club will sing the "Lullaby" by Braums, and the "Hunting Song" by Bullard.

Hoover Will Speak

At 9 o'clock President Hoover and other prominent public figures will speak in a broadcast sponsored by the same association. This latter broadcast will be given over the NBC hook-up and will begin at 8:30 o'clock.

GUEST DINNER PLANS MADE BY COURSE XV

Worcester Industrialist Was
First of Series Speakers

The department of Business and Engineering Administration has inaugurated a series of formal dinners in honor of outstanding New England industrialists. The plan has resulted from the desire of graduate students for opportunity personally to obtain the counsel of men of large executive responsibilities.

The guest of the first dinner, held Thursday evening in the Walker Memorial Grill Room, was Mr. F. H. Willard, President of the Associated Industries of Massachusetts, and President of the Graton and Knight Leather Company at Worcester. President Willard discussed the value of co-operative efforts among manufacturers.

CONFERENCE ATTENDED BY FOREIGN STUDENTS

Seven Technology students, representing as many foreign countries, were present at a meeting of foreign students held at the Beacon School, Wellesley Hills, last Wednesday. Preben Oldenburg '33, of the T.C.A. Foreign Students' department, arranged the meeting and was present as a representative of Denmark. The other Technology men and the countries they represented were Bernardo P. Abrera '32, Philippine Islands; Arthur Orne '32, China; Vinayak K. Shah '32, India; Shinji Togo, G., Japan; and Ivan L. Levcoff '33, U. S. S. R.

The purpose of the meeting was to promote friendship and good will among the foreign students. At the meeting an open forum was held in which topics of interest to the students were discussed.

T. C. A. FUND DEFICIT DECREASED BY \$50

Late returns in the T.C.A. Drive have brought the total received up to \$4675, which is an increase of \$50 since the Drive closed a week ago. Letters are being sent to students in the Cooperative courses who are not at Technology at present, in an effort to reduce the present deficit in the Drive funds. The amount now needed to meet the budget is \$425.

PROM COMMITTEE MEMBERS CHOSEN BY JUNIOR CLASS

Fossett, Lindsay, Gifford, Bell
and Hapgood Chosen to
Arrange Affair

BOND, 1935 TREASURER

Edward C. Collins was chosen president of the freshman class at the annual class elections held in conjunction with the Junior Prom elections last Tuesday; Arthur I. Zich was elected vice-president; G. Peter Grant, secretary; and Chester E. Bond, treasurer. Henry F. King and John Hunt were chosen to represent the class on the Institute Committee and Richard L. Shaw and John Edwards Tyler were elected to the Executive Committee.

Results of the Junior Prom elections show that Richard L. Fossett, Lennox H. Lindsay, Jr., Leonard B. Gifford, Charles C. Bell, and Cyrus S. Hapgood will comprise the committee for this year.

Native of Roxbury
Collins, the yearling president, comes from Roxbury, Mass. He attended Mechanic Arts High School, was president of the student council and was also prominent in football and baseball. Before coming to Technology, he attended Loyola College where he played on the varsity football team.

The class vice-president, Zich, hails from Allston, Mass., where he attended the Public Latin School. While there he was prominent on the school swimming team. Grant, the secretary, has his home in Plandome, L. I., and attended Phillips Exeter Academy before coming to Technology. Chester E. Bond, the newly-elected treasurer, comes from Everett, Mass., and attended Everett High School and Boston College prior to his enrollment at the Institute. In high school he was on the staff of the *Broadcast*, the school newspaper, as well as the *Yearbook*, and was also a member of the Boys' Glee Club and the Junior Prom committee.

Institute Committee Member
Henry F. King, the Institute Committee member, lives at Arlington, Mass.,

T. E. N. CHANGES TYPE, STARTS NEW COLUMN

Tech Engineering News will make its appearance Monday in a new Bodoni typeface and also with the inauguration of a new feature, entitled "Engineering Digest," which contains condensations of articles in the leading trade and scientific journals.

Professor Langer, last year a member of the Institute's Physics Department, and now professor of Physics at the University of Minnesota, is the author of the featured article, "Atomic Theory—1931." Other articles in the issue include "Engineering the Fire Alarm," by Professor Edward R. Schwarz '23; "The Trans-Atlantic Liner—1819-1931," by Robert H. Macy '33; "The Photo-electric Cell Integrator; Copper in the Iron Horse," by J. V. B. Duer.

Senior Ring Sign-Ups Now Being Made in Main Lobby

Sign-ups for Senior Rings will close at the end of the week, and all Seniors are urged to make arrangements for their orders in the Main Lobby as soon as possible. There are three sizes to choose from: the large, the standard, and the miniature. The delivery date for the rings has been set for December 16.

The sign-ups for the ring are being taken by Mr. Frank A. Chace, Jr., who is a representative of the manufacturers.

WHAT OF FIELD DAY?

THOUGH Field Day occurred two weeks ago, there is still rife a great amount of discussion and comment upon it, voicing considerable dissatisfaction and censure. As a matter of interest, it appears that the freshman-Sophomore group is well satisfied, but the upperclassmen, certain members of the Faculty, and a few of the Alumni have observed that there was a distinct lack of enthusiasm in this particular meet, and that it was a decided let-down from the Field Days of the last two or three years. This would seem to indicate that the matter deserves some examination, or at least more than just passing comment.

Field Day was designed to serve many purposes, its first being to function as a means for releasing the surplus energy of the lower classmen, roused to a certain pitch by so-called "interclass rivalry." Then too, Field Day is an excellent means of interesting the new men in athletics, and in bringing them together as a class, thus starting them off on their four-year careers at Technology as a unified group with common understanding and interests.

As for surplus energy, apparently there was very little this year. When it becomes necessary for upperclassmen to call "pep meetings" to stir up this energy, something seems lacking. Yet such was the paradoxical condition existing. The whole series of events was conducted in an orderly and a quiet manner; other than a few previous attempts at kidnappings and the usual catcalls, there was nothing to indicate that the two lower classes were in the least antagonistic toward one another. In other words, it was an orderly interclass meet, not a Technology Field Day.

The recent Field Day was, however, a very great success as an athletic contest. The teams on both sides fought well, and deserve every plaudit in spite of the fact that many difficulties were encountered in bringing about their organization. The glove fight took its share of spectators and energy. But where else was there any show of this "interclass rivalry"?

Recent Field Days have, unhappily or no, fallen on rainy, cold days. Perhaps, then, we may blame the present lack of spirit on the very pleasant weather of October the thirtieth. There was nothing physical to inspire strenuous exercise. Perhaps it all may be laid to the changing educational system in which the preparatory schools are gradually taking a larger part. Men receive too much of this interclass agitation before they reach the Institute, and therefore are somewhat unwilling to indulge again to any great extent. Perhaps it means that the typical Technology undergraduate has changed his outlook on organized play.

Should something be done about Field Day, and if so, what, is a question which must be answered by the members of the present freshman and Sophomore Classes. Shall there be substituted a series of interclass athletic meets to be held throughout the year; shall an attempt be made to outline some new event to substitute for Field Day and serve the same purposes; shall the student body wait until after next year's meet before making any decisions; or shall Field Day be dropped abruptly from the calendar? The members of the lower classes are responsible for making the decision on this issue, and we would urge them to communicate their every opinion and suggestion. Field Day has been an essential part of the undergraduate program. Shall it continue so, or do we suggest the impossible?

RASH ACTION

THE recent "killing" by the Amherst College authorities of the *Lord Jeff*, the undergraduate comic publication, because it published what was considered an offensive article, may have been the proper procedure, but it would seem an action stimulated only by prejudice and narrow-mindedness. Ordering a magazine to cease publication is a serious step; it reflects not only on the entire career of that organ, but on the school as well.

Would it not have been the more appropriate move to request that the Managing Board of the *Lord Jeff* resign, and new men elected to their positions? Then allow the magazine to continue to function on approval, as it were. Certainly it is better to punish the guilty individuals than to place the entire blame on the publication which they have mismanaged.

Hah! Dirt! Hah hah! Scandal and rumors of scandal! As usual, the Lounger has had his trusty sleuths at work squinting through keyholes and listening at doors, lo! these many years. As usual, their labors have been fruitful; they have unearthed rumors about no less a person than our Lobby!

Lobby, saith Dame Rumor, has been looking with envy upon the beautiful

A formula to end "Mother Hubbard buying"

Bare "cupboards" or overstocked ones—
are costly in any industry. In the Bell
System a safe margin of telephone supplies
must always be on hand to assure
continuous, efficient service.

Telephone men attacked this problem
of distribution in a scientific spirit—
studied every angle of purchasing, shipping,
warehousing, costs, methods. There
emerged a mathematical formula. From

this, tables have been developed showing
just how much of any item should be
stocked to meet requirements most eco-
nomically. Result: investment in stock
is kept low—turnover is speeded-up—
99.25% of orders are filled without delay!

The working out of this formula is
typical of the thought Bell System men
give to improving the telephone art in
all its phases.

NATION-WIDE SYSTEM OF INTER-CONNECTING TELEPHONES

CROSS COUNTRY TEAM
TAKES SECOND PLACE

(Continued from Page One)

Bringing in the extra places which enabled the Institute to score seventy-seven points, were Barrett, a Sophomore from Lynn, Charlie Hall, also a Sophomore, and Ellery Clark. These men placed in fifteenth, twenty-second and twenty-third places, which added up to the total of 77 points, only 25 behind the well-balanced team from New Hampshire.

Coach Hedlund is very pleased with the showing that his team made, and says

that this last meet will make a marked difference in the way the team will run when it goes down to New York for the National Intercollegiates.

Tomorrow afternoon at 2 o'clock, the annual fall interclass meet will take place on Tech Field, with what promises to be a record list of entries competing. Many men have already evidenced their intentions to enter, and many unannounced men are anticipated.

Fifteen usual events will comprise the meet, including all those in a regular dual meet, and in the races particularly, there is a great deal of striving for positions.

Dick Bell is expected to have his way in the dashes, both the century, and the "220", and his teammate, Wrigley, will probably dominate the broad jump.

The two-mile run will probably narrow down to a dual match between Don Gil-

man and Kearns, after the first few laps. Men from last year's freshman team are

FRESH

"You needn't tell me
—I know Camel is
the fresh cigarette!"

in nature's way
CAMELS are never parched or toasted!

FRESHNESS and flavor in a cigarette trace right back to natural moisture.

If you overheat or process tobacco so harshly as to dry out all natural moisture you drive out *freshness* and flavor too.

Camel never parches or toasts the fine Turkish and mild Domestic tobaccos it uses—they are *naturally* smooth, cool, mellow, with natural moisture retained.

That's why the Camel Humidor Pack proves such a blessing to Camel smokers—it brings them a fine cigarette *fresh* to start with, and *fresh* to smoke.

If you don't realize what natural moisture means in genuine *freshness* and flavor, switch to Camels and see.

Try this mild, slow-burning, throat-friendly favorite for just one day—then leave it, if you can!

silver beer mug now in the possession of the Lounger's merry men as a result of the annual *Technique* debacle. He has been thinking that the trophy might look well on the wall of the famed 3-108, according to the aforementioned old lady. Casting his eye about for a means to muscle in on the Lounger's racket, he espied the Review. Idea! Enter the Review in the publication league!

There was, however, one fly in the broth, or ointment, or whatever you have flies in. The staff of the Review consists of three fair typists and Jim Killian, the Lounger's old buddy. Ringers must be obtained somewhere, and the mighty mind immediately fixed upon the Rumford Press. Many brawny pressmen are

VARSITY SOCCER TEAM LOSES TO ARMY, 5-1

Four Goals, In Last Period, Win Game for West Pointers

Playing against a well-conditioned Army team, the Tech varsity soccer team lost, 5-1, on Armistice Day. The game was played at West Point, and started at 3.30 o'clock. One goal was scored in the first half by each team. Baer, outside left, tallied for the Cadets, and Fra Giacomo, center, scored for the Beavers. It was, however, the first time that the Army has been scored upon in eleven games.

In the first three periods the play was fast and clean. The Beavers played stiff soccer, holding the Cadets in check until the last quarter, when the Army team broke loose and scored four goals to win the game. Baer scored two more of the goals, and Khambu and Godwin scored the other two. Entering the final quarter, the Tech varsity was out on its feet, while their opponents were still going strong. This period was played under floodlights and this may have handicapped the Engineers as they have never played under these conditions. Tech made one substitution during the whole game, and the Army made two.

Lineups follow:

Tech	Army
Schulze, o.r.	o.r., Conway
Kron, i.r.	i.r., Dolph
Fra Giacomo, Thumin, c.	c., Praband
Gray, i.l.	i.l., Khambu

Baur, g.	g., Zitzman

Time: Four 22-minute periods.
Official: Mr. John Hume
Goals by: Baer 3, Khambu, Godwin (Army);
Fra Giacomo (Tech).
Army Substitutes: Godwin, Neely.

CROSS-COUNTRY TEAM TAKES SECOND PLACE

(Continued from Page Three)

strong contenders for first in this race, though, as well as in the mile and in the half.

Without Moody, the hammer will probably go to Ted Rimbach, and the shotput to Max Winerman, unless one of the freshman team comes through with something surprising. Prestwich has shown some good stuff in the weights and may be counted on to be in the running.

There is likely to be little in the pole vault that can be forecast, as the entry list is small, and it is not yet known who will compete. Dick Morse and Ed Pierce will probably lead the rest of the field, though, considering what has been shown so far during the season.

Quarter-milers have been little in evidence around the track house, but if Rees Schwarz, Walter Wrigley, Mann, and Hall get together on it there will be dust flying. In the hurdles, there is Crosby, who won the Highs last week from scratch in the handicap meet, and Lockhart, who won the Lows. Between these two men, and Everett Coon, if he enters, there is sure to be hot competition.

COMMITTEE ABANDONS 1931 SPORTS NIGHT

(Continued from Page One) by the respective committee chairman who has contracted the bill was approved. It was also voted that sub-committees of the Institute Committee and classes hand in budgets to the Budget Committee at least two weeks before they incur any expenses.

The Combined Professional Societies announced that they have again voted to accept full responsibility for the management of Open House Day this year. It is expected that the next move in the matter will be taken by the Institute authorities, who will decide whether Open House will be held this year.

HOWARD WINS FINAL TENNIS ENCOUNTER

In the final match of the tennis tournament, which was staged at the Charlestown Navy Yard last Tuesday afternoon at 1.30 o'clock, W. E. Howard, formerly of Navy, defeated Franklin K. Koerner '34, in a closely-contested battle. The scores were: 6-4, 6-2, 1-6, 6-3, the games all being very fast. During one game Howard narrowly averted injury when he tripped over a bench while in the pursuit of a wide ball. Howard is an experienced player with three years of tennis experience at Navy behind him. He ranked first on the team, and following his graduation three years ago, coached the game at Navy. This event is his first participation against any Technology talent.

there employed, and it is said that their play would be made much more effective by a padding of linotype slugs in their pants. The Lounger wishes to rise in his place and denounce, with all the fervor of which his old bones are capable, this invincible attempt to muscle in on his racket; his sleuths are even now engaged in a whispering campaign against it.

Speaking of the forthcoming THE TECH-Technique battle, it is said that the sniveling 'sniques are even admitting that they want some ringers. How have the mighty fallen! Not even eleven men on their staff! THE TECH keeps at least enough warriors on the masthead.

FRESHMEN CHOSEN LIVE IN THIS STATE

(Continued from Page One)

and attended Arlington High School, where he took part in cross-country, golf, debating, and the school orchestra. The other Institute Committee representative, John Hunt, hails from Brooklyn, Conn., and prepared for Technology at Salisbury School. While there he was captain of the track team and was also prominent in football, crew, and the Dramatic Society.

Shaw, who was elected to the Executive Committee, lives at Auburndale, Mass., and studied at Newton High School before coming to the Institute. He was manager of basket ball and was also a member of the Drama Club, the English Club, and the band.

Tyler, the other Executive Committee representative, comes from Newton Center, and prepared at Holderness School. While there he was business manager of the school magazine, on the student council and a member of the football and hockey teams.

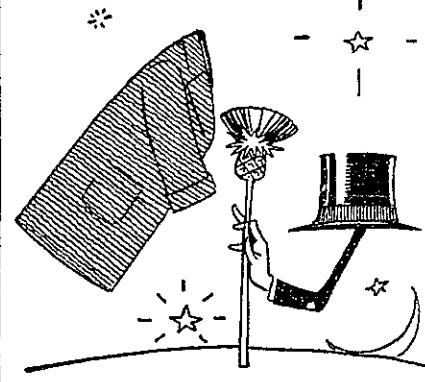

Junior Prom Committee

Fossett, the Junior Prom Committee member, is manager of track and vice-president of the Junior Class. He is a member of the Beaver Key Society, and also of the Beaver Club. Lindsay is from Concord, Mass., and transferred to Technology from the University of British Columbia. Gifford has his home in Marblehead, Mass., and prepared for Technology at Chauncy Hall. Bell, who comes from Westfield, N. J., represented his class on the Institute Committee for three years, and is a member of the Beaver Club, the Quadrangle Club and the Beaver Key Society. Haggard is stroke of the varsity crew and is a member of Beaver Key Society, as well as holding several other positions.

Scotch Mist* overcoats are high-hat?

Certainly they are, if smart design, drape and patterns can make 'em so!

The waterproof qualities of Scotch Mists* are so unique that people sometimes think of them only as storm coats.

But they're more!

They're the snappiest and best made coats for all-round, all-weather use that our expert tailor shops can turn out. The fact that our exclusive Scotch Mist* fabric happens to be waterproof as well as good looking simply makes Scotch Mist* wearers doubly lucky.

In Fall weights, \$55; for Winter, \$55 to \$85.

Other topcoats and Fall suits start as low as \$35.
